

2015

Employer of the Year | **Winner: MPM Ltd**

Celebrating employers' commitment to developing their workforce through apprenticeships and/or training.

Overview

MPM manufactures a range of high quality glass-fibre reinforced polymer products in either high or low volume. The company's flexibility and skill allow a wide complexity of projects, from bath panels, shower trays, ambulance parts, wheel chair access ramps, water tanks and many other products.

In July 2015 two apprentices completed the Level 2 NVQ Diploma in Performing Manufacturing Operations that the company registered them for.

The same year, ten team members underwent training to improve personal effectiveness and overall team flexibility and efficiency.

All apprentices are enrolled with the Textile Centre of Excellence (the Training Provider) based in Huddersfield. All training and assessment is carried out at MPM.

"As a smaller company in the grander scheme of things it was fantastic to be recognised once again for our commitment to the team and not only being a supplier of choice but an employer of choice."

Ben Wilson, Director, MPM Ltd

The Composites UK Industry Awards are presented at the black-tie dinner on the first Wednesday in November. The event is aligned with the Composites Engineering Show in Birmingham.

Keep an eye out for our annual nomination process every May for your chance to apply.
