

# 2019

## Employer of the Year | **Winner: Pentaxia**

Award for outstanding employers encouraging their team to grow.

### Overview

Pentaxia continuously invests in its plant, equipment and people to ensure it maintains its competitive advantage. It is immensely proud of its talented staff team and places great value in investing in people.

Piloting a programme where new staff participate on a two-week induction programme, including a series of short attachments to all departments within the company, ensures each staff member gains a deeper understanding of how the business operates.

Recognising the importance of both external and internal training Pentaxia has staff participating in Engineering / Manufacturing apprenticeships at Levels 2 and 3, Business Administration Level 3 and one individual following the HR Consultant / Partner (Level 5) standard.

Over the last year it has developed and implemented its own trainee programme for trainee laminators and more recently a graduate programme.

Pentaxia has recently launched a company strapline 'Be the best you can today, be better tomorrow'. This is something that the staff at Pentaxia strive to achieve and moving forward this ethos will become prevalent as the company continues to go from strength-to-strength.

Pentaxia with their award on the evening.

"We are thrilled to receive the Employer of the Year award from Composites UK and to be recognised by our peers. Our strength lies in our fantastic workforce and we would not succeed without their 100% commitment and dedication. This a great achievement for the whole team."

The Composites UK Industry Awards are presented at the black-tie dinner which is aligned with the Composites Engineering Show in Birmingham.

Keep an eye out for our annual nomination process every May for your chance to apply.
