

# MEMBERSHIP

Composites UK is the trade association for companies working in the UK's fibre-reinforced polymer composite supply chain. Its focus is to encourage and promote its 370+ member companies through furthering knowledge, lobbying government via the Composites Leadership Forum, facilitating networking and supporting industry growth.

## WHAT ARE THE MEMBER BENEFITS?

- **Reach a new audience** – promotion of your news through our suite of e-newsletters, website and social media.
- **Network with key contacts** – with heavily discounted opportunities to attend, exhibit and sponsor at our events. We also organise pavilion stands at the industry's leading exhibitions.
- **Have new business signposted to you** – via the Composites UK team when responding to enquiries that come in through our channels. You can also be part of the UK's only composites capabilities database – the 'Hub' - with a prioritised listing.
- **Get the support you need** – with access to discounted hand-picked third party services in our Business Support Network.
- **Stay up-to-date** – with our bulletins on key industry opportunities, health & safety practices and funding calls.
- **Contribute to focussed groups** - join one or more of our sub-groups covering sustainability, materials suppliers and construction to discuss issues and opportunities in these areas with like minded people.
- **Be more sustainable** – get access to detailed information on how you can lower your company's carbon footprint and meet net-zero targets.

"Composites UK provides both a support network and marketing platform for its members. It facilitates connections, educates and campaigns, and encourages collaborative partnerships. It is a key enabler for growth for businesses large and small. Its work will be even more vital as the UK economy seeks to bounce back from the effects of the pandemic."

**Samantha Bunyan**  
Head of Industry Engagement & Sustainability, Cecence

"We have been a Composites UK member for longer than I can remember! The organisation is modern, progressive & proactive to a growing, highly technical composites industry – its representation in the advancing markets related to automotive & aerospace are vital. The attention paid to recycling is equally important to the furtherance of our materials.

"Exhibiting at events at relatively low cost provides us with forums & platforms to meet with industry decision makers."

**Keith Godber, Managing Director**  
Chemical Release Company

## HOW TO JOIN

We encourage you to contact us for a no obligation chat about how membership may benefit your business, or you can complete and return a membership form. Visit our website for a copy of the form and up-to-date pricing information.
