

**INNOVATION IN COMPOSITE MANUFACTURE****FINALIST: Scott & Fyfe**

Founded over 160 years ago, Scott & Fyfe has transitioned over the years from a traditional weaving company to a UK composites manufacturer with a strong heritage in material innovation. Our products are used in the agriculture, water, industrial and automotive industries.

Our latest product development, Alphashield, is a breakthrough composite glass pipe liner delivering exceptional flexibility, strength, and rapid UV curing performance. Alphashield enables efficient installation, reduced environmental impact, and extended pipe life - setting a new benchmark in advanced composite liner technology worldwide.
